Latest NEWS and INFO for the NEWSLETTER
MMMonVHF The VHF-DX-Portal
****

** MMMonVHF MS Sprint Contest 2010 (World Wide MS Contest!) **

The VHF-DX-Portal MMMonVHF in cooperation with the magazines DUBUS
and Funk-Telegramm (by Joachim, DL8HCZ) invited you to take part
in our 144 MHz Meteorscatter Sprint Contest, which took place for
the first time in the 2008 Perseid shower. The 144 MHz Meteor-
scatter Sprint Contest will take place each year on the day of the
from IMO (International Meteor Organization) announced maximum of
the Perseid shower:

2010 contest period: Date: 12./13. August 2010
Time period: 12.00hrs till 13.August 2010 12.00hrs UT

PLEASE take all rules and info of the the MMMonVHF and
DUBUS 144 MHz Meteorscatter-Sprint Contest 2010 here:
http://www.mmmonvhf.de/ctest.php
Results 2009: http://www.mmmonvhf.de/ctest2009.php
Results 2008: http://www.mmmonvhf.de/ctest2008.php

** Update 50 MHz activity in HS - Only HS0AC on Air! **

After the NTC - National Telecommunication Commission of Thailand
refused the general temporary 50 MHz license (f. VHF Contest 2010
ONLY!) for all HS Ham's, it was only allowed for the Radio Amateur
Society of Thailand's club station, HS0AC, operating on 6-meter
(50-MHz)band! 177 DX stations worked on 6m by HS0AC during CQWW VHF

contest 2010. The Radio Amateur Society of Thailand's club station,
HS0AC, operating in the 6-metre (50-MHz) band for the first time in
almost two decades and running just 10 watts to a three element
homebrew Yagi antenna, made a total of 177 DX contacts outside
Thailand during the CQWW VHF contest on July 18/19, 2010.
The operator was Joe, HS2JFW, who entered the contest in the single
operator, single band category, and this marked special
authorisation for HS0AC to operate on 6-metres by Thailand's
National Telecommunications Commission (NTC) following a formal
request from RAST. The countries worked were Vietnam, China, Japan
and Hong Kong and many reports received from the DX stations were
599. Propagation was thought to be Sporadic-E. The transceiver used
was a Yaesu FT-736-R while the antenna was a home-brew three-element
Yagi array. RAST hopes that the NTC will sanction future requests
to operate on the 6-metre band and that eventually full access will
be granted to the band in Thailand.

Max, OH0/DK1MAX qrv 50 and 144 MHz
I will be active again from the island of Kumlinge in the Alands
starting July 21st. Callsign will be OH0/DK1MAX and grid KP00jf.
We are an international group of operators from OH, OK, OM and DL.
We intend to stay until July 26th. My main focus is 6m. Looks like
we have some 2m rig with us. 100W into a 9ele. I will run FSK441
MS then. Look for us on 370.
SOURCE: Max, DK1MAX at UKSMG Announce

** DXCC: BY ; Square: OL95 ; Start: 2010-07-24 **

Pingtan Island AS-138 (OL95) qrv HF and VHF From 24/Jul-29/Jul,
JSDXC members BA4TA, BA4RC, BA4RS, BA4RN, BA4WI, BA4RB, BA4TB,
BA4VE，BH4REQ, BH4ROO, BD4REB, BD4RPJ, BG4RQJ, BH4RLO, BD5RV will
activate Pingtan Island AS-138 on HF and VHF,they will use home
call/5 on HF also 6m, 2m and 0.7m EME/satellite,QSL's via homecalls.
SOURCE: tnx to Dale, BA4TB direct to MMMonVHF

Guys, I am going to activate Pingtan Island (AS138, locator OL95vn)
next weekend from July 25 to 29 as BD5RV/5. EME will be included in
this operation on 6m, 2m, and 70cm. On 2m band, i will be equipped
with a 800W PA and 10ele * 2 yagi array. For 70cm band, I will be
running with 23*2 yagi array and 75W QRP. For 6m is 100W but antenna
is TBD. I'll be available on N0UK logger during the operation.
Hope to see you guys on the moon. SOURCE: BD5RV via MoonNet

USE or SUBSCRIBE: http://www.mmmonvhf.de/latest.php?id=3418

For the MMMonVHF grid hunters ... two new grids to be activated by
portable EME operations on 30 July from 20:00 UTC until moonset in

ZL at about 21:30 UTC:
ZL1RS RF65 - 4 x 5 element Yagis and 500W on 144.140 JT65b 2nd
ZL4DK RE43 - 1 x 17 element Yagi and 150W on 144.123 JT65b 2nd
A little bit more info on my web site at http://www.qsl.net/zl1rs
Operation is subject to the weather (it is mid-winter in ZL!)
but we will be QRV unless bad winds make it impossible to put up
antennas. This will only be a short operation (primary reason is
for a local meteor scatter operation), but we will be back in RF65
at least later in the year during our summer for a longer period
and more serious EME operation. 73

Rolf, DK2ZF, will try to activate Aaland Islands (OH0)in august
2010 on 50, 144 and 432 MHz - NEWS from DK2ZF, dated 2010-07-18:
QRG for EME from OH0: 432.090 MHz : OH0 FIRST, 144.144 MHz : OH0
FIRST 50 MHz : NO EME bcse the PA is not received in time!
If condx permit and find suitable site will be in some afternoon
hours in K O 0 9 C X / 100 w FT-847 and HB9CV (CW and SSB)
let cross our fingers for some Sporadic E of long MS bursts...
Rolf, DK2ZF, remember again that this trip to OH0 will be only a
test trip for his Pacific Trip: www.mmmonvhf.de/latest.php?id=3236
in october 2010. Sure he needs a lot of calls now to test his RIG.
He send info that he will prefer the calls who helps now to test
at his pacific trip later the year...

If you had been thinking about putting up that larger antenna,
getting an amplifier for 6m, or finally getting on WSJT modes this
summer, you still have time! PSE mark your calendars now to watch
for 3D2LR the last week of September and the first week of October.
That period includes the best days of the month for 6m EME, and the
first weekend of the ARRL EME Contest. I will be looking for EU
stations on their moonrises and moonsets and will be elevating to
look for NA stations during their moonsets during the best days.
Full details and tentative operating schedule at:
http://www.bigskyspaces.com/w7gj/Fiji2010.htm
I will not have internet capability, so please follow the
instructions on the above web page, and spread out when you call!

I plan to call CQ in the first sequence JT65A mode. I will also be looking toward the USA when aimed at the moon. Frequency will probably be 50.190, but will be confirmed on the MMM on VHF web page for the DXpedition: http://www.mmmonvhf.de/latest.php?id=3244
If you still are not sure when you have a window with me, please download GJTRACKER: http://bigskyspaces.com/w7gj/GJTRACKER.zip
SOURCE: Lance, W7GJ direct to MMMonVHF

There WILL be as well a 2M activity (assuming no equipment disaster! ;-) - more details about the 144 MHz EME part, if we are closer to the expedition ...

** 70 MHz one-day mini-DXpedition to JP33QA **

I will go on a one-day mini-DXpedition to JP33QA on Saturday 24 July 2010. This trip will be dedicated to 70 MHz only.
Probable activity hours from 0700 UTC til 1400 UTC.
Equipment see: http://www.mmmonvhf.de/latest.php?id=3406
Will try to be QRV on ON4KST chat. Hope to be working you!
SOURCE: tnx to Robert LA4ANA direct to MMMonVHF

** 6m and 4m activity from Andre, LX1FX/MM **

Andre will be qrv again /MM for about 2 months. He will start in Marseille, then heading to Menorca, Mallorca and then to Cadiz and back to Marseille. The squares may be activated depending on WX and free time situation: JN23-JN22-JN21-JN20-JN10-JM09-JM08-IM97-IM96-IM86-IM76 and IM66 (Time: 2010-07-19 till 2010-09-18)
SOURCE: tnx to Joe, CH1HZE direct to MMMonVHF

** TK, CORSICA, activities on HF and 144 MHz **

Patrice/F5RBB and Mireille F0FRL will be active as TK/homecall between September 12-25th. Patrice will be active on 80-10 meters using SSB and the Digital modes, while Mireille will be on SSB on 2 meters. SOURCE: Ohio/Penn DX Bulletin #967

** W0VHQ Northwest Iowa Amateur R.C. (EN23) QRV SPECIAL EVENT **

July 24 - 25 NIARC will be operating from this museum Railroad Caboose using the club callsign W0VHQ for the Sanborn Iowa Railroad Celebration. For this special event, we'll be operating on or close to 14.250, 7.225, 28.360, 50.130. For a QSL card, send a SASE to Randy Hogan, KC0ZTR, 601 West 4th St, Sanborn, IA 51248. No need to send a QSL card in to get one back. Also, we'll be monitoring the local repeaters in Sanborn, Iowa 443.900 (110.9 tone) and EchoLink Node 396927 and the Sheldon, Iowa repeater 145.310 (110.9 tone) and EchoLink Node 102345.
There should be live video of the event at www.sanborniowa.com if you want to take a peek. :-)
SOURCE: tnx to Andy, N8OFS direct to MMMonVHF

** IZ7ATN/P : iota contest from Brindisi EU-091 **

These operators Fred/IK7JWX, Paolo/IK7UXW, Sergio/I7ZTM, Simon/
IZ7ATN and Vincenzo/I7PXV will be active from Isolotto Traversa
(IIA BR-009, LH WAIL PU-028, ARLHS ITA-175,WLOTA L-005 and Grid
Loc. JN80xp) in the Pedagne IOTA Group during the RSGB IOTA Contest
(July 24-25th) as a (Multi-Op/ Low-Power/Mixed entry. Contest call
sign will be IZ7ATN/P. Look for activity before and after the
contest. Some operators will be active on the WARC, WHF, UHF, 6m.
SSB (PSK31, RTTY). QSL via IK7JWX.
SOURCE: Fred, IK7JWX direct to MMMonVHF

** N0B Colorado 14er Special Event **

The Old Goats DXpedition team (wG0AT, N7UN, AC7MA and including
Rooster and Peanut!) are planning our 3rd Colo 14er "special event"
activation of Mt Huron (14,003'), a Colorado 14er this August 8th,
2010 using our 2009 callsign of N0B. On August 8th, Huron Pk
(W0/SR-004 4272m/14,003'), Mt Shasta (W6/CN-001 4317m/14,162'), and
Mt Langley (W6/SN-003 4275m/14,025') will be activated by Steve/
wG0AT and Guy/N7UN,and Rich/AC7MA; Brian/N6IZ; and Mark/AF6AX
respectively. This will be the 3rd year for the Special Event N0B
and the first year as SOTA Activations. One important goal will be
Summit-2-Summit contacts between >14,000 ft (>4268m) peaks but also
to provide SOTA Chaser points from these summits. The Mt. Shasta
climb is a technical effort as the mountain has permanent glacier
and snowfields. If the weather cooperates for all teams, this
should be a spectacular Special Event! Follow the latest info
at http://n0b-14er.blogspot.com and view the videos of the previous
two years. In 2009, N0B braved 30 to 40 kt winds on the summit of
Mt. Humboldt. And hopefully the propagation will favor EU contacts
on 20m! See more information about SOTA at http://www.sota.org.uk
SOURCE: Guy, N7UN via SOTA Mailinglist

** 9X0TL qrv HF and 50 MHz until end august **

Hello, In the next week I will go back to Kigali, Rwanda for
business. I hope I will get my licence on wednesday, 21-Jul-2010.
The call 9X0TL was assigned to me and all papers are prepared. With
interruptions (6-8 days each) I'm there until end August/beginning
September 2010. This is not a dedicated dx-pedition, it's a spare
time operation only. K3 , 600 Watt Solid State PA, Butternut HF-9V,
HB9CV (6m), wires - 80m-6m - CW, SSB, RTTY - QSL via home call
